edly over, but the war on the structaure to be carried out the same the army of the saints were gather the army of the saints were gathered. In war array one hundred thousand strong. Take as and example of the whole giguntic system of pilings, Russel & Major's contract for transportation. The aggregate parametrs mader it will be ushigh as \$5,000,000, it the fall amount of service stipulated for is performed. One of Mr. Russell's friends and aponts tells us that the total compensation admitted by the contract is over six sullions of dellars. Forty thousand head of stock, four thousand wagons and other vehicles, and three thousand lines are collected and employed by this firm at and beyond Fort and employed by this firm at and beyond Port Leavenworth. The Government has stipulated to take four thousand head of their caltie for to take four thousand head of their cattle for beef. Whatever modifications may be made of this arrangment, it will inevitably cost the governments, at the very lowest, two and a half millions of dollars.

It is the intention of the government to make the Salt Lake settlement a central sta-tion for the military department of the inte-rior west of the Mississippi. It is mili-way between the great river and the Pacific Ocean, and it a favorable location for controlling the Indians and protecting the emigration to the

same amount to order the tryops back at to send forward re-informents and supplies, which is likely enough. It may be agreed by the partinan followers of the government that these expenditures could not be avoided. That is the eract point on which we have them. They are all wholly unnecosary. They are a wanton waste of public treasure—no, not wanton, for they have two well defined objects—the first of which is to build up the shavery faction in Kansas, and cruss out the Free-State party there, and the second to reward by a corrupt use of the public money the boels and agents of the corrupt executive cabal segaged in that infamous work. An immense sum of money—easy four millions of dollars—was expended last year in organizing and setting in motion in expedition in all respects adequate to the reduction of the Mormons to obedience. That sum has gone into the regular accounts of the year, and has nothing whatever to do with the ten millions of dollars which have been and will be spent during the last half of this fineal year, nor the fifteen millions additional which will certainly be spent on the same object during the next. This extra twenty-five millions, the whole of it, may be set down to proffigate and corrupt extravagance. The cause of it all is the detention of the troops in Kansas from May, till the middle of September, 1867, for the purpose of insulling, oppressing, and crushing the Free State settlers of that territory, and to give the law; insolent, and sware propagandists of the

In a conversation had with Mr. Bernhisel delegate from Usah, this shorning, Informs me that he had no doubt that the mission of Governor. Comming to Salt Lake City wested result in a settlement of all the difficulties now existing between the general government and the period of that, that the desire of the people to receive the governor is evidence of their wishes, and he thinks that Governor Cumming, in proceeding quietly and in an official capacity without an essort of Col. Johnston's troops, acide wishly.

wisely.

From another source I am informed that the reports that the Mormons are proparing to leave Salt Lake Valley are all true; that the statement made by Mr. Gilbert, upon his arrival at "Fort Bridger," that the movement of the propie from the valley is not only on the part of the women and children, but that the right would messel at the reason of the transfer of the form of the statement of the form of the source of the same country of their families. the women and children, but that the mil-would proceed as a rear guera to their familie. I am reliably informed that it is the intentio of Brigham Young and the other leading Mor-mona to locate themselves in the Russian do minions, but that the rank and file of their fol-lowers will return to Salt Lake City if a trea-ty of peace is effected.
